Re: U.S. Patent No. 6,310,473
Serial No. 09/211,538
Date of Patent: October 30, 2001
MAGNETIC ROTATIONAL POSITION SENSOR
Zong Ping Zhao
Our Reference: 3448-69

Dear Ms. Bynam:

We are writing in regards to the above referenced issued patent. Upon reviewing the patent, it was discovered to contain the incorrect specification, which upon examination was the original specification instead of the Second Substitute Specification filed with the U.S. Patent and Trademark Office on April 18, 2001.

As per the instructions of the Patent Assistance Center, we forwarded the original issued patent and a copy of the Second Substitute Specification filed on April 18, 2001 and the subsequent Notice of Allowance dated May 21, 2001 to Kevin Poole on April 9, 2003. On October 8, 2003, we received a call from Kevin Poole, informing us that you were now handling this case. If this matter is not going to be corrected, we would request that the original patent be returned to our office at your earliest convenience.

Please confirm receipt of this request. Do not hesitate to contact me know if you need anything further concerning this matter.

Best regards,

Brad A. Schepers
